

Guitar Hero 3 Cheats For The Wii

Game Overview

Guitar Hero III is going to rock your face off. You will channel your inner guitar god as you thrash your way through all sorts of venues. In addition to standard Guitar Hero features you know and adore, this game has all kinds of killer new options such as the new multiplayer action-inspired battle mode, grueling boss battles, a bevy of exclusive unlockable content, and authentic rock venues.

The expanded online multiplayer game modes will also allow axe-shredders worldwide to compete head-to-head for true legendary rock status. Best of all, check out the new songs! Fresh downloadable content will be offered on multiple platforms, and players can now shred to a set list from many of the greatest rock songs ever recorded.

Featured hits include:

- Rock And Roll All Nite (as made famous by Kiss)
- School's Out (as made famous by Alice Cooper)
- Cult of Personality (by Living Colour)
- Barracuda (as made famous by Heart)

This game comes bundled with the all-new wireless Gibson Les Paul guitar controller. The exclusive Gibson guitars include innovative features such as removable faceplates allowing fans to personalize their guitars making them their own, and a new button color design that will be integrated for an even greater authentic feel and rock experience.

More Tips & Cheats

Gigantic Gems

If you have trouble hitting the notes on expert, go to the in-game cheat feature and strum this code:

Green, Red, Green, Yellow, Green, Blue, Green, Orange, Green, Blue, Green, Yellow, Green, Red, Green, Green & Red, Red & Yellow, Green & Red, Yellow & Blue, Green & Red, Blue & Orange, Green & Red, Yellow & Blue, Green & Red, Red & Yellow, Green & Red, and Green & Yellow.

After that, play a song. The gems in the game are a lot bigger than usual! You'll not only see what's coming, but you'll be less likely to miss a note.

Battle Lou in Easy Mode

To battle with Lou using Easy Mode notes, try the following. When the battle with Lou begins (on Expert Mode), strum without holding any frets down. When you lose, select the Tutorial option at the Game Over menu. Do the Guitar Battle Tutorial and play through it in its entirety. After the "Lesson Complete" message appears on-screen and the next fret board appears, pause the game and exit. This will bring you back to the Lessons menu.

From here, press the red button, which will bring you back to the list of songs. The battle with Lou should be highlighted. Choose the song, and Lou's note chart will be set to Easy Mode now. Your note chart will still be in Expert Mode, but Lou's will be in easy mode.

Faster Note Hitting

If there's a part in a song which has a ton of notes really close together, try strumming up and down, instead of just up or just down. Trust me, you'll hit a lot more notes this way.

Funny Impulse Glitch

If you have the song "Impulse" in your bonus songs (you can buy it in the shop), go to Practice, choose "Impulse", and only practice on the section called "Most Cheesiest Interlude". Since there are is no lead guitar in that section, no notes will come up at all during the whole section.

Get to the Orange Button

Here is a good tip on how to get to the orange button:

Have your first finger on Red, and then so on and so forth, and when Green comes by, bring the first finger over from Red to Green.

Help in KOC Hard

This song took me a few weeks to master but I finally got it down. The part I was stuck on was Galloping Triplets (this is the name in practice mode). So what I did was I did this part on Slowest about 20 times until I got the hang of it. Then 15 times on Slower. After that 10 times on Slow. Finally 5 times on Full Speed. Good Luck to you guys out there.

Hit all notes even when you have Amp Overload

If you're opponent uses Amp Overload on you, you can just look over at his fretboard and see what the notes are.

NOTE: This only works when playing online.

NOTE: It only works if you haven't used any battle power things on your opponent.

Wii Remote Usage

If you want to play this game with a friend on your Wii and don't have a spare guitar, you can play the game using the Wii Remote. Here's how the buttons correspond:

- B Button - Green
- Right (D-Pad) - Red
- A Button - Yellow
- 1 Button - Blue
- 2 Button - Orange
